Something popped up on Meg's calendar. Can I move it slightly on that day to 10-11 am?

Yes, I will look at Meg's schedule and propose some dates to discuss the MS4 Federal Facilities boilerplate. I think we covered most of the bigger items during the last call, but it would be good to revisit some of the areas we skipped over and then talk about next steps.

Hi Mary – I should be able to make the call and be able to speak so I can cover that item.

Also, could we schedule a time to complete your review of our MS4 Federal Facility boilerplate?

Thanks and hope you are staying warm today!

Mary – For EPA, we have an update on our MSGP:

The draft permit is at OMB for interagency review, and that we anticipate the proposal coming out for public comment at the beginning of 2020.
